

Wines of uncommon elegance & respect for terroir

We import fine wine from South Africa, France, and Spain, and the United Kingdom. Founded and managed by wine producers, we source wines that exhibit elegance and respect for terroir.

Our South African wines include the country's most respected producers in the Simonsberg, Stellenbosch, and Swartland appellations, regarded as the country's most notable viticultural areas.

We're an importer and distributor in New York, New Jersey, Connecticut, and California where we provide comprehensive service for discerning retailers, restaurateurs, and hoteliers. Outside of these states, our wines are also available through like-minded distributor partners who specialize in terroir-specific fine wines. We are able to ship wines from our climate-controlled storage facility to all 50 states.
